

Cyclical Review of Policies

Policy Statement

Each policy is assigned a cycle in terms of years from approval or last review. The ordinary cycle is five years.

Procedures

When time for review nears, the Secretary of the University notifies the cognizant vice president, or the President of the University as the case may be.

A reply to the Secretary of the University states that the policy is still accurate and practical as it is or that it will be reviewed for possible revision or repeal.
